

Why Taking a Shuttle to Disneyland Paris is better than a Taxi

Travelling from [Charles de Gaulle to Disneyland Paris](#) can be an exciting part of your trip, but choosing the right transport makes all the difference. Many visitors think taxis are the quickest option but in truth, a private shuttle can be far better for comfort, value, and peace of mind.

The Difference between a Shuttle and a Taxi

Before you decide, it's worth knowing what sets them apart.

- **Taxis** charge by the meter, meaning your fare can rise if you get stuck in traffic.
- **Shuttles** (like Easy Go Shuttle) offer fixed prices — you know exactly what you'll pay before you start.
- **Taxi drivers** may not always speak English fluently.
- **Shuttle drivers** are often multilingual and trained for airport transfers, giving a smoother experience.

So when heading from [CDG to Disneyland Paris](#), choosing a private shuttle keeps your travel stress-free and predictable.

Comfort and Convenience You'll Notice Immediately

After a long flight, all you want is a relaxed ride straight to your hotel or park gate. That's where a shuttle service shines:

- **No waiting in long taxi queues** at the airport terminals.
- **Personal meet-and-greet** at arrivals, with a driver holding your name card.
- **Spacious, air-conditioned vehicles** that fit your luggage and family comfortably.
- **Direct route** no stops or shared rides.

It's the little comforts that make a huge difference after a tiring flight, especially when travelling with children or heavy bags.

Cost Transparency and Value for Money

Taxis in Paris can be unpredictable when it comes to price. Depending on the time of day and traffic, you might end up paying much more than you expected.

With a reliable shuttle service, you'll enjoy:

- A **fixed rate** agreed before your journey.
- **No hidden charges** for luggage or waiting time.
- The ability to **pay online in advance**, so there's no need to handle cash on arrival.

Whether you're going from **Charles de Gaulle to Disneyland Paris** or the other way around, you'll know your budget from the start.

Family-Friendly Travel Choice

Families often find taxis too small or uncomfortable, especially with strollers and suitcases. Shuttle vehicles are designed for groups offering enough space, child seats, and a friendly driver who helps load everything carefully.

Plus, you can book return trips at the same time, avoiding last-minute rushes when it's time to head home.

It's no wonder many family's rate private shuttles as their **best transfer experience** during their Disneyland trip.

Professional Drivers and Reliable Timings

A trusted shuttle company ensures every driver knows the routes, airport layouts, and park entrances perfectly. You won't face language barriers or confusion about directions.

Easy Go Shuttle drivers are **trained, polite, and punctual**, ensuring you reach the park or hotel on time even during peak hours.

They also track your flight in case of delays, adjusting pickup times automatically.
